REPORT OF FOREST FIRE WARDEN & DISTRICT CHIEF

People cause fires. Our records show that the number of fires increases in an area as the population increases and our state is growing tremendously. This means that we all must be aware of fire causes and do our best to prevent their occurrence.

When we are very young the lighted match is an adventure, burnt fingers and a dropped match is another fire. A little older we like to have a woodland cookout, or go out by ourselves for a smoke but fire and forests get together for another statistic. We adults like to clean up in the spring, burn the old debris and the dead grass, result — escaped fires and much personal expense.

With new homes and summer cottages located in wood lands and with abandoned fields and forests crowding the back yard of our villages' streets, it is necessary that everyone be aware all through the fire season, which comes with the disappearence of the snow, of the need to be careful with outdoor fires and fire sources.

The following action will help:

1. To teach our children the danger of lighted matches.
2. To *never* discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn —
   a. You need a written permit from the town fire warden for *all* debris burning except when the ground is covered with snow. Cooking fires in outdoor fireplaces or in charcoal braziers in your own back yard is permitted on notification of the warden.
   b. The warden is forbidden by regulation to allow

burning of household rubbish on *grass* by householders between 9:00 A.M. and 5:00 P.M.

c. Have equipment on hand to control the fire *before* you light the match.

4. Promptly report any fire out of control to your fire warden or fire department.

Help to keep our town out of the fire occurrence column and save your tax dollars for useful purposes.

REPORT OF POLICE DEPARTMENT

The percent of increase in crimes investigated by this Department is in line with figures released by the FBI. All Police Departments request the assistance of the general public by reporting suspicious activities immediately, providing as accurate information as possible. Parents are urged to give more strict supervision to their children, whether they be grade school age or teenagers. Know where your children are, in whose company they are, what they are doing — and, you will save you and your children much grief.

Almost every operator of a motor vehicle is well aware of the increase in traffic on Route 89. Recent traffic checks, at the time when skiers are returning home on Sundays, have shown a traffic pattern of about 1,000 cars per hour, southbound. Eighty-nine has taken its toll of lives in which this Department either investigated or assisted. Sixteen other auto accidents were covered by this Department plus those covered by State Police on this Route.

Four members of Warner Police Department took the first of a series of Federal training courses for enforcement officers and feel they gained a great deal from the sessions.

The officers who serve this community are still faced with the problem of furnishing their own cars while on duty. It does not seem proper that the officers should have to support, personally, their vehicle for Police work.

The following listing will show the activities of Warner Police Department during the past year in comparison with 1967.

Just about one year ago, the Federal Communication Commission advised all town Police Departments that the AM radio frequency, issued under license to N. H. State Police, would be cancelled in June 1969. An extension of one year has been granted to allow for the changeover, making our present AM set, the most important piece of equipment we have, obsolete at that time. FCC issued a new FM license and new radio units were installed in State Police and Fish and Game cars during the past year. They have proved to be very satisfactory especially with the elimination of noise and interference. Now, the FCC has issued a new FM frequency for town Police Departments.

There are more than 100 towns and small cities affected by this change, as well as the Sheriffs Departments and other State agencies. As a result of a great deal of consideration, the general consensus was that these divisions stay with the State Police hookup rather than try to do it "on their own." A few of the reasons for this opinion are:

1. The new frequency will be covered, as in the past, 24 hours a day. On the new sets, officers can speak directly between cars in the area or to the local base, where installed, as well as to state Police headquarters.

2. The frequency is covered by Police personnel who have the necessary knowledge to service the call.

3. State Police headquarters have at their fingertips extensive directories and telephone numbers of enforcement personnel, medical services, ambulance and wrecker operators throughout the State, as well as personnel of State agencies.

4. State Police technicians install and service the sets on this frequency at no cost to the Town, other than re-

placement parts which are purchased through the State at its yearly contract price.

5. Units purchased through the State are grouped together, giving the Town the benefit of quantity purchase prices.

All the members of Warner Police Department wish to express our sincere thanks to the Selectmen, Fire Department, Highway Department, State Police and local residents who have worked with and co-operated with us, making our job a little easier.

REPORT OF THE PLANNING BOARD

The past year's activity of the Warner Planning Board has been directed toward submission of proposed zoning and building code ordinances for consideration at the 1969 Town Meeting. The proposed zoning ordinance was framed with the intent of coming up with a much simpler form than that which was not accepted by the Town Meeting two years ago. Similarly, the building code offered is a very simple one. If adopted, it may well be found that amendments should be made to these ordinances in subsequent years to make them better serve the wishes of the town in keeping Warner the attractive community we feel it is today.

Please note that these ordinances are being placed before the Town in the manner prescribed by New Hampshire law. A properly notified first hearing was held on January 6, 1969. Following it, the Planning Board made rather extensive changes in the text as a result of comments made at the hearing. The texts of the ordinances as printed elsewhere in this report are the revised versions, and these may not be modified except for minor corrections of punctuation or to clarify wording with no change in intent after the second hearing held February 17, 1969. Copies of the final text and the proposed official zoning map will be placed on file with the Town Clerk two weeks prior to Town Meeting and will be posted in the Town Hall on Town Meeting day. The Planning Board sincerely hopes you will vote "yes" on the two questions which will appear on the official printed ballots for the election of town officers as follows:

"Are you in favor of the adoption of the zoning ordinance as proposed by the planning board?"

"Are you in favor of the adoption of the building code ordinance as proposed by the planning board?"

LIBRARIAN'S REPORT OF THE PILLSBURY FREE LIBRARY

To the Trustees of Pillsbury Free Library:

This year Children and programs for them has been the main objective at the library. The Friends of the Library have helped in activities and programs to acquaint more children with the services of the library.

Children's programs have been: a summer reading program and a story-hour every week followed by a party. A film hour for children has been held once a month.

National Library Week in April was observed by an Open House and a display of new books.

During Children's Book Week we exhibited new children's books in two stores. At the Fall Foliage Festival books on holidays were displayed.

The American Legion Poppy posters were displayed in May. These posters were made by the Graded School pupils.

The library has a collection of large print books and a collection of phonograph records ready for circulation.

The librarian and trustees have attended work-shops, meetings, and conventions during the year.

11,586 books have been loaned this year. 450 new books have been added.

The Civic Improvement Committee of the Warner Woman's Club lighted the tree on the library lawn at Christmas. The interior of the library was decorated by the Friends of the library.

The Pillsbury library wishes to thank everyone that has helped in any way during the year.

The trustees have met in the library for all their regular meetings.
